PROJECTS

TCG Price Tracker — *Card search for Pokémon Trading Card Game*

Mobile/tablet optimized application that uses APIs to search and retrieve data for Pokémon trading cards. Has a favorites list to save cards for later, individual card pages that can be shared, and a selector to change the prices to popular cryptocurrencies for fun.

Weather Dashboard — *Search for your city's weather*

Small weather search dashboard that displays a lot of weather information and even a 5-day forecast. It also keeps track of recently searched cities and features a clear button to empty the recent search list.

Coding Quiz — *Basic HTML, CSS, & JavaScript questions*

An approx. 20 question timed quiz that keeps track of a user's score and pushes them to a high scores list. Also randomizes the question and makes sure there aren't any repeats.

EDUCATION

Northwestern Uni. School of Professional Studies, Evanston, IL — *Web Development Boot Camp*

MAR 2021 - SEPT 2021

Sharpened coding abilities and did a lot of practice with code pairing and working in groups.

Minooka Community High School, Minooka, IL — *Diploma*

AUG 2013 - MAY 2017

Graduated with honors and was enrolled in and finished 5 AP courses.

EXPERIENCE

AJ Dralle, Inc, Joliet, IL — *Machine Operator*

AUG 2018 - PRESENT

Useful experience with fixing machines, keeping inventory, and working together to finish tasks faster.

SKILLS

Thorough understanding of UI color theory and making apps visually pleasing.

Fast learner with advanced computer science knowledge.

Adept at all Office applications and Photoshop.

Excels in a team setting and great at breaking down a project and delegating tasks.
